**Questions, Comments, and Announcements.** Steve announced that the Community and Rural Development migrant program is going away. Buncombe County has other grants that might fill the needs that were met by it.

It was asked, does SMCC has a protocol for dealing with Youth issues? It would be helpful to have a neutral third-party available should they arise. At present, there is no clear protocol, although there seems to be a set of community center rules that aren't universally followed. This topic needs further exploration.

Finally, it was observed that bikes and scooters are occasionally being used in the building, which can be a problem for the floors, especially the gym floor.

The meeting was adjourned by the Vice President at 7:35 pm.
