Budget 2024 Update- Bruce Larson (15 Minutes)

Discussion: 30 Minutes

Should Do List - Bruce Larson (30 Minutes)

Written Reports:

Food Pantry:

Adjournment - President 6:55pm

Food Pantry Report

November 2023

During the first eleven months of 2023, the Food Pantry has served 790 households (families) comprising 2170 individuals, with an average of 72 households per month and an average of 197 individuals per month. At the November Food Pantry, 98 households were served comprising 293 individuals.

[In preparing this Report, it was discovered that the number of individuals for the first ten months of 2023 was incorrectly reported as 2384. The correct number individuals should have been 1877; the number of households was correct: 692. As a result, the average number of households during the first ten months of the year was 69 and the average number of individuals should have been 188.]

For your information, the other side of this page a very close portrayal of the food distributed to one household is provided. With the exception of turkeys, this food distribution is fairly representative.

Bruce Larson for the Food Pantry Team
